FIBRAIN SCM-A-XX S splice cassette

Fibrain SCM-A-XX fiber optic splice cassette is an element used in fiber optic equipment such as cabinets, fiber optic modules to guarantee storage of extra length of fiber and protect splices in specifically designed handles. Optimized shape of cassette facilitates effective placement of fibers. Therefore, thanks to exchangeable handles for splice protection sleeves, the cassette is suitable for various techniques of splicing fibers. Furthermore, the tubes' handles and in-built hinges facilitate mounting the cassettes and their multi-storage placement.

APPLICATIONS:

Nodal points of fiber optic networks;
Distribution points of fiber optic networks;

FEATURES & BENEFITS:

Capacity up to max. 24 splices;
Simple access to fibers' organizer;
Exchangeable handles for splices;
Combining cassettes with the use of in-built hinges;
Possibility of changing a fiber placement;
Facilitated mounting of fiber optic cable's tube;
Possibility of placing a fiber from a lower side of the cassette;
Easy identification of a cassette with the use of colorful icons;
Possibility of mounting splitters in Alubox housing;

TECHNICAL SPECIFICATION:

Technical data	SCM-A-XX
Length	195mm
Width	93.6mm
Thickness	8.9mm
Capacity	max. 24 splices
Material	PC + ABS

- 1 Various arrangements of side entry ports
- 2 Various arrangements of lower entry ports
- 3 Exchangeable handles for splices
- 4 Identification icons
- 5 Hinges ensuring multi-storage of cassettes
- 6 A change of direction in placing a fiber
- 7 Possibility of storage extra length of fiber

Typ:	SCM-A-XX	28.01.2015
